

Anushka Agrahari

Computer Science Student | Software Developer

✉ anushkaagrahari17@gmail.com ☎ +91 7752980002 📍 Kanpur, India [LinkedIn](#) [GitHub](#)

EDUCATION

Bachelor of Technology (Computer Science and Engineering)

Pranveer Singh Institute of Technology, Kanpur
(Affiliated to Dr. APJ Abdul Kalam Technical University)
2023 – 2027 (till 5th semester) 78.3%

Intermediate (CBSE Board)

Children Public Sr. Sec. School, Fatehpur
2022 72.83%

High School (CBSE Board)

Children Public Sr. Sec. School, Fatehpur
2020 76.6%

PROJECTS

Autonomous Cyber Defence System (Ongoing)

Tech: Python, TensorFlow, LangChain, LangGraph, OpenAI API, React, MongoDB

- Building an AI-powered cyber defence system using LLMs and agentic AI to **detect, analyze, and respond to threats in real time**.
- Designing an **autonomous agent pipeline** that monitors network activity, interprets attack patterns, and executes intelligent countermeasures without human intervention.
- Trained anomaly detection models on network traffic to **identify intrusions, malware, and DDoS attacks with high accuracy**.
- Built a **scalable, self-learning system with a React dashboard** for live monitoring, alert management, and incident reporting.

Tether: AI-Based Missing Person Detection System

Tech: Python, OpenCV, MongoDB, JavaScript

- Built a face recognition system to identify missing individuals using OpenCV-based computer vision.
- Integrated MongoDB for efficient storage and retrieval of image data.
- Developed a responsive web interface for searching and managing records.
- Delivered a scalable solution to improve real-world search and identification.

Form Maker Website

Tech: HTML, CSS, JavaScript

- Developed a web-based platform to create and share custom forms.
- Enabled dynamic response collection with a simple, accessible UI.

OBJECTIVE

Computer Science student with experience building web and AI-based applications. Strong interest in problem-solving, seeking an SDE role to develop efficient solutions and grow as a software developer.

SKILLS

Languages: Java, JavaScript, Python
Frontend: HTML, CSS, Bootstrap
Backend: Node.js, Express.js
Databases: MySQL, MongoDB
Tools: Git, GitHub
Core Concepts: Data Structure and Algorithm(DSA), Database Management System(DBMS), Object Oriented Programming(OOPs)

ACHIEVEMENTS

Solved 300+ Coding Problems (LeetCode, GFG, HackerRank)

Strengthened skills in arrays, dynamic programming, graphs, and core DSA topics.

Infosys Springboard Certifications

Certified in HTML5, CSS3, Python Fundamentals, and Python for Data Science.

CERTIFICATIONS

Infosys Springboard – HTML5 & CSS3

Infosys Springboard – Python Fundamentals

Infosys Springboard – Python for Data Science

INTERESTS

Problem Solving | Open Source | Competitive Coding | Volunteering

EXTRA-CURRICULAR ACTIVITIES

- Event Manager** – Prayas Club (Environmental Awareness Club), PSIT. Led a team to organize workshops and awareness drives on sustainability.
- Winner – Treasure Hunt Competition:** Won college Treasure Hunt event, showcasing problem-solving and teamwork.
- Participated in **Debate Competition** during college fest, showcasing communication and critical thinking skills.
